

SPACEMATH

+ ADDITIONS

Samantha Carvalho

Space Math + Additions

Goal of the game :

Be the first player to succeed 3 additions by replacing 3 rockets.

Rule of the game :

Each player takes 3 rocket bodies, all rocket legs are placed face up on the table. As soon as possible each player takes one foot to compound his rocket by adding two rocket feet to get the figure in the porthole of the body of the rocket.

Game over :

When a player correctly rebuilds 3 rockets he wins the game.
